

December 24, 2025

Important notice from the Department of Developmental Services about:

Use of Generative Artificial Intelligence

D-2025-Reporting Requirements-004

What to Know

This letter explains the benefits and risks of using Generative Artificial Intelligence (GenAI). This applies to regional centers and service providers. It gives guidance and resources. It also says that the Department must approve regional centers before they use GenAI. Regional centers must have similar rules of for service providers.

What's Changing

This does not change how people get their services. This letter helps regional centers and service providers to be safe when they use GenAI. This is to protect the privacy of people and families.

Questions?

You can ask questions to the Department's information security office.
