

**June 3, 2026**

Important notice from the Department of Developmental Services about:

# Quality Incentive Program (QIP) - Fiscal Year 2026-27 Status List

D-2026-Quality Incentive Program-004

---

## What to Know

This directive tells regional centers (RCs) that the list of service providers' QIP statuses is now available online. RCs must use this online list to set their service provider rates for the 2026-27 fiscal year.

## What's Changing

This directive does not change how individuals and families receive services. This directive lets regional centers know they can now access an Excel spreadsheet list of their providers who use a service code(s) that are part of the QIP.

The QIP status list is found online in the RC Portal. The list shows if a provider has earned 90, 95, or 100% of the rate models effective July 1, 2026, based on QIP requirements.
